I remember

OCEANS

My sight has eclipsed

waves of trees

fields of wheat

and change was my
constant companion

I remember

A surreal collage on a brown background. In the upper left, a car is shown in motion, blurred with a purple and orange glow. In the upper right, a full moon is visible through the dark, silhouetted branches of a tree. In the lower right, a white pickup truck is driving away on a road, kicking up a cloud of dust. Several thin, curved lines sweep across the scene, and several dark, elongated, teardrop-shaped objects are scattered throughout.

the days and nights
of eternity

...without beginning or end the voices as without beginning or end the voices as without beginning

...and the voice of the living as without beginning or end the voices as without beginning

...the voice of the living as without beginning or end the voices as without beginning

...the voice of the living as without beginning or end the voices as without beginning

...the voice of the living as without beginning or end the voices as without beginning

...the voice of the living as without beginning or end the voices as without beginning

...the voice of the living as without beginning or end the voices as without beginning

...the voice of the living as without beginning or end the voices as without beginning

ng or end the voices without beginning or end the voices

ED ONLY A FEW DAYS

hath
dead man's form

not in being

and turtle swimming
god, sweat, tears

tears end, grief ends
happiness ends
all ends

These are the events
of my passage
in the red dust

The heat was hunting too close
On hungry days
the world was on fire
All the world was burning
clouds were cataract
Six senses shrunk
stalking through
my ribs' bony memory

I rested on the cliff's mouth agape
between the dumb jaws of the sun

I saw one small shadow
pass so far!

Through the arctic gate of stars

beyond the other face

claves behind a mountain of air
draws the earth the sky without borders
to the edge of winds cliff
to the end of endless night

and before the sun
the lay of life after life
falling against time between worlds
for one moment
one heart and breath and eye
a portal between dawn and eternity
and The breath empties to her mouth,
the silence of the void breaks

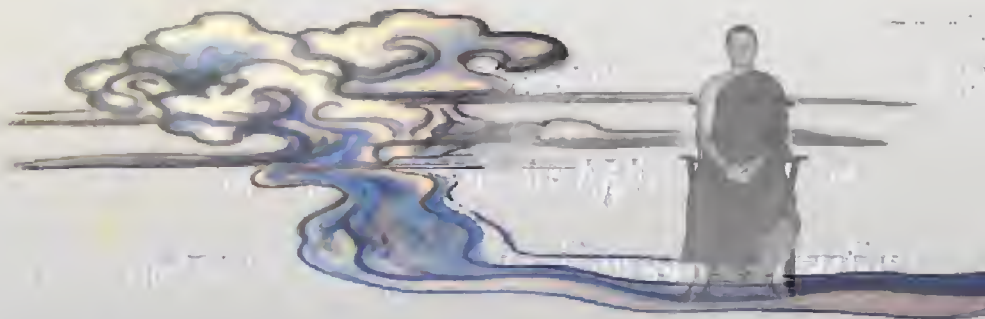

Sound turns
the heart drums
and out of darkness comes
all life and more than the sum
of nuclei - I see

the brightest burning sons

where are you?

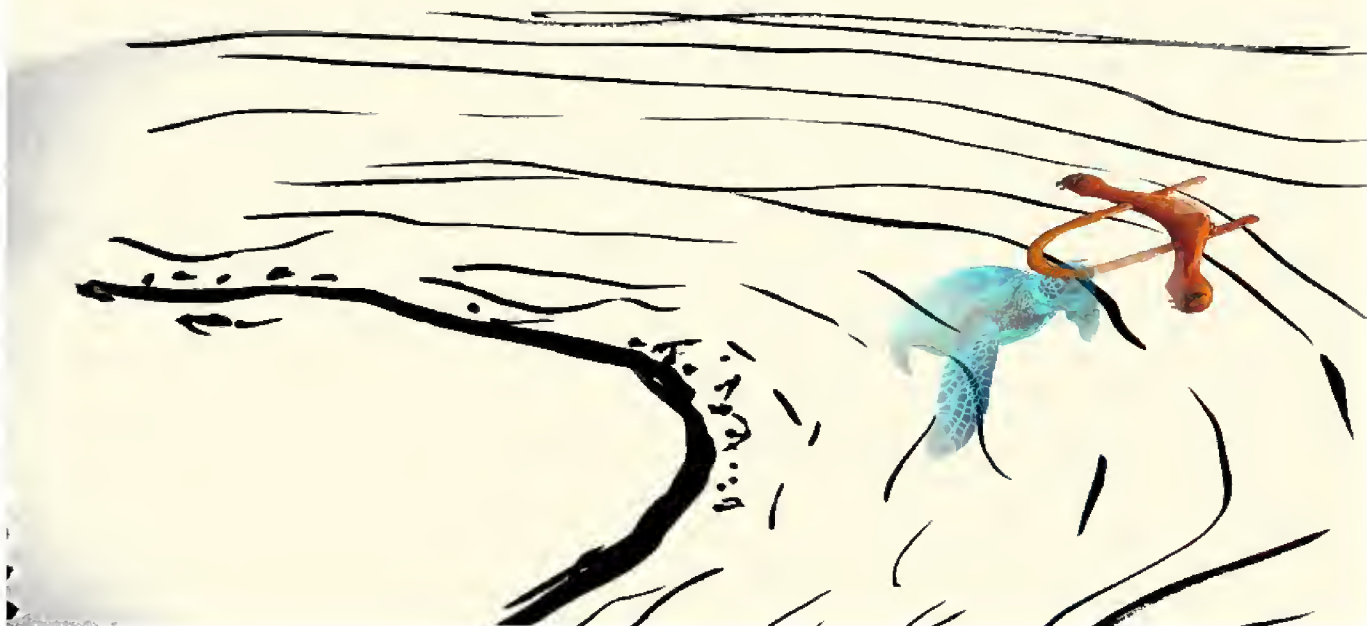

way beyond
the perimeter
of this mortal frame
& upon, with it and through it
folding from within the same
there are only mortal frames
